

Product Data Sheet

HB-411 ULTRALUBE PLUS

Synthetic HI-TEMP Food Grade Chain Lube

DESCRIPTION:

HB-411 ULTRALUBE PLUS HT FG CHAIN LUBE has unsurpassed oxidation & thermal stability. It is compounded from 100% synthetic base oil. It provides excellent lubrication of chains, superior anti-wear & corrosion protection. Other attributes are high flash point, low volatility which lead to no carbon or soot build up. It will not thicken at extreme ambient temperatures which allows for reduced friction & energy input. It is approved by USDA for H1 applications complying with FDA 21CFR 178.3570.

HB-411 ULTRALUBE PLUS HT FG CHAIN LUBE is designed for chains operating at high temperatures requiring superior thermal stability. This product is designed also for chains operating at very low temps that will eliminate oil thickening as regular mineral oils will.

APPLICATIONS:

Recommended for all types of chains operating under extreme temperatures of heat or cold, in areas such as Food Plants, Gypsum Plants, Powder Coaters, Processing Plants, Drying Kilns, Refrigerated Conveyors, Plywood Plants, Particle Board Plants, Ceramics Manufacturing.
