

DESCRIPTION:

- Synthetic-based lubricant developed specifically for the use in food plant ovens
- Provides excellent adhesion, penetration and lubrication qualities for all types of oven belts to include steel, stainless steel, rubber and Teflon
- Spray on to the belt with manual sprayer or automatic application system
- Forms a thin, dry coating that provides superior anti-friction and anti-seizure properties even under high temperature and extreme pressure conditions
- Dries to a non-tacky finish to allow separation of the food product from the belt
- Provides up to 24 hours of protection depending on temperature settings
- Withstands water, oils, alkalis and most acids
- Dilution ratio range: High heat 1:5 – 1:10, Low heat to no heat up to 1:50
- All components comply with FDA Regulations, CFT Title 21, paragraphs 175.300, 175.105, 176.170 and 176.180 for use applications for packaging of food where there is incidental contact

- Certified Kosher by the Chicago Rabbinical Council
- Specifically designed for use on food plant conveyor ovens. Spray on the belts and allow to dry before beginning the production cycle.
- Conveyor chains
- Oven chains
- Food machinery
- Kiln cars
- Glass-making machinery
- Roofing machinery

FORM	LIQUID
COLOR	CLEAR, WATER WHITE
STORAGE STABILITY	STIR/AGITATE PRIOR TO USE
PH	7.3
FLASH POINT	NON-FLAMMABLE
