## HB-58B Brake & Parts Cleaner VOC

- I. **GENERAL DESCRIPTION:** Brake & Parts Cleaner features industrial grade performance to quickly dissolve brake fluid, dust, and oil from brake drums, linings, pads and other and related equipment.
- II. **Benefits:** Improves brake performance and stops brake squealing by reducing brake dust and grease. Penetrates into inaccessible areas, cracks and crevices. Cleaner dries fast and leaves no residue behind. Non-chlorinated and non-corrosive.
- III. **Application:** Cleans all types of brake pads, drums, disks, calipers and related equipment found on industrial, commercial and utility vehicles. Excellent choice for normal, general purpose automotive brake cleaning. Can also be used to clean tools, clutches, bearings, u-joints, chains and other equipment.
- IV. **Directions:** Do not use directly on painted surfaces, leather, vinyl or other delicate surfaces. Safe on most automotive plastics and rubber. Apply with cloth or sprayer as desired. Air dry or wipe clean as needed. Protect rubber parts and painted surfaces from excessive overspray. Do not use on electrical equipment or machinery while in operation.
- V. **Limitations:** Please refer to the Safety Data Sheet for specific information on material hazards, etc. Always use in a well ventilated area and avoid direct breathing of fumes. Product is extremely flammable; never use around open flame, spark and ignition sources. Never use on energized equipment or open electrical connections.

Typical Characteristics are those obtained with normal tolerance of production and no constitute a specification. Variations that do not affect the performance of the product during the normal manufacturing process.
